Colors: blue grey/yellow, burgundy/ yellow

Sizes: S, M, L, XL, XXL

ZOVEE SHORT

Remarkable, light shorts for summer use.

Made of natural fabric with elastic yarn, equipped with 3 pockets and climbing features. Key features:

- natural fabric with elastic yarn
- climbing cut and features
- elastic belt
- fresh design

Fabric: Cotton Stretch

Colors: yellow, green

Sizes: S, M, L, XL, XXL

CLIMBING PANTS

AKI

Comfortable fit and great style are the common features of the Aki pants line. Strong and ultralight nylon fabric makes the pants not only look good but also last for a long time.

- profiled knees
- integrated belt
- chalk bag loop
- 4 pockets
- adjustable hem

Fabric: 100% Polyamide

Colours: red, dark grey

Sizes: S, M, L, XL, XXL

AKI LADY

Ultra light, summer climbing pants for ladies. Strong nylon fabric makes the pants look good and last in good shape for a long time.

Key features:

- profiled knees
- integrated belt
- chalk bag loop
- 4 pockets
- adjustable hem

Fabric: 100% Polyamide

Colours: red, dark grey

Sizes: S, M, L, XL, XXL

AKI 3/4

Strong, light and short for summer rock climbing.

- profiled knees
- integrated belt
- chalk bag loop
- 4 pockets
- adjustable hem

Fabric: 100% Polyamide

Colours: red, dark grey

Sizes: S, M, L, XL, XXL

OVISS

Avantgarde pants created as for bouldering as for everyday use. Heavy cotton with an addition of stretch is a classic solution which guarantees great look, good comfort and long lasting form.

Key features:

- thick, durable cotton;
- profiled knees, crotch gusset;
- chalk bag and brush loops.

Fabric: 97% Cotton / 3% Elasthane

Colors: olive green

Sizes: S, M, L, XL, XXL

DIDI

Enormously comfortable, technical climbing t-shirt made of light, fully elastic fabric.

Key features:

- technical cut
- elastic and breathable fabric
- light weight

Fabric: Eclipse Stretch

Colors: burgundy, mirabelle

Sizes: S, M, L, XL, XXL

DIDI LADY

Attractive climbing tank top for ladies made of breathable and elastic fabric.

Key features:

- technical cut
- elastic and breathable fabric
- light weight

Fabric: Eclipse Stretch

Colors: burgundy, mirabelle

Sizes: S, M, L, XL, XXL

ATTAI

Small chalk bag with string closure, brush loop and hairy inner lining.
Fabric: Nanoqpile, Softshell 2L
Colors: green/black, burgundy/black

KERU

Chalk bag made of colorful fabrics with embroidery decoration.
Fabric: Patchwork
Colors: cumulus/orange, cumulus/green

CRASH PAD

Foldable, thick bouldering pad protecting from injuries during unexpected fall offs from rocks. Velcros and transport handles.
Fabric: Midora Size: 200 x 120 x 10 cm
Colors: red/dark grey, dark grey/light green

DIX

Chalk bag made of colorful fabrics with embroidery decoration.
Fabric: Patchwork
Colours: jeans/burgundy, jeans/black

BRIONE

Big bouldering chalk bag with stable base, handle and pocket.
Fabric: Patchwork with print
Colours: lime/orange/green/burgund

ULLA

Simple, almost 2 square meters big rope sheet made of impregnated fabric. Helps to carry and protect your rope.
Fabric: 100% Polyester
Size: 135 x 135 cm

ACCESSORIES

BALACLAVA

Basic balaclava for cold and windy conditions. Fabric: Pontetorto Stretch
Colors: black textured

DOBE

Technical, close fitted hat.
Can be worn under a helmet.
Fabric: Nanoqpile WP + 1

TAAY

Bright warmth for everyone available in 2 colors.
Fabric: 100% Acrylic

TAPI

Warm, high and avant-garde with pom-pom.
Fabric: 100% Acrylic

GARRE

Stripes without stars on our cap in 2 color combinations.
Fabric: 100% Acrylic

POCO

Stylish, close fitted hat for cold days.
Fabric: 100% Acrylic

SOCKS

JAZA

Ski touring socks with thick and warm weave for comfort in low temperatures.

Key features:

- no pressure double welt;
- AirControl System for optimized ventilation of your feet;
- flatlock seams minimize skin abrasions;
- Y heel construction for perfect fit.

Fabric: 84% Merino Wool, 13% Prolen Siltex, 3% Lycra

Sizes: M (38-41), L (42-44), XL (45-47)

AMEDI

Lightest Merino Wool socks for spring and summer trekking.

Key features:

- no pressure double welt;
- AirControl System for optimized ventilation of Your feet;
- flatlock seams minimize skin abrasions;
- Y heel construction for perfect fit

Fabric: 84% Merino Wool, 13% Prolen Siltex, 3% Lycra

Sizes: M (38-41), L (42-44), XL (45-47)

KALAR

For winter trekking – thick weave for warm feeling. Key features:

- no pressure double welt;
- AirControl System for optimized ventilation of your feet;
- flatlock seams minimize skin abrasions;
- Y heel construction for perfect fit.

Fabric: 84% Merino Wool, 13% Prolen Siltex, 3% Lycra

Sizes: M (38-41), L (42-44), XL (45-47)

LEVAN

Running socks of medium height for intensive activities in summer temperatures.

Key features:

- no pressure double welt;
- close, flexible fit;
- flatlock seams minimize skin abrasions;
- Y heel construction for perfect fit.

Fabric: 85% Coolmax, 12% Polyamide, 3% Lycra

Sizes: M (38-41), L (42-44), XL (45-47)

BAYU

Insulated mitten which provides comfort and thermal protection in coldest conditions.

Fabric: Aquatex 2 (10000mm/H2O / 10000g/m2/24h)

Insulation: Primaloft Sport 100

KOJI

Insulated glove with excellent thermal protection for tough conditions.

Fabric: Aquatex 2 (10000mm/H2O / 10000g/m2/24h)

Insulation: Primaloft Sport 100

YODA

Light, waterproof mitten providing humidity and wind protection.

Fabric: Aquatex 2 (10000mm/H2O / 10000g/m2/24h)

BATURA

Closely cut technical glove for intensive winter sport activities.

Fabric: Softshell 2

Insulation: Thinsulate

TIBBA

Light softshell glove for any kind of activities at chilly temperatures.

Fabric: Softshell 2

YERU

Basic Polartec glove which can be also used as waterproof glove insulation.

Fabric: Polartec 200 Classic

BACKPACKS

GHARB 65

Comfortable and functional mountaineering backpack for few day mountain trips.

- adjustable and detachable lid
- 4 side compression straps
- front zip for easy backpack access
- 2 trekking pole attachment loops
- 2 ice axe attachment points
- small zipped inner pocket
- mesh hip belt for better ventilation
- additional mesh pocket on hip belt
- removable aluminum frame

Fabric: Midora Pro

Size: 65 liters

Colors:red/orange, grey/blue

SAFI 45

Advanced, technical backpack for all climbing use with ergonomic carrying system.

Key features:

- 1 big compartment;
- 1 lid pocket, 1 front pocket;
- trekking poles and ice axe attachments points;
- 2 mesh pockets;
- adjustable chest strap and waist belt;
- long compression straps for a karrimat;
- hydration system compatible;
- integrated raincover.

Carrying system: flexible preformed pad (P-formula)

Fabric: Midora Pro

Size: 45 liter

Colors:red/orange, grey/blue

MGARR 35

Spacious and light trekking backpack for mountain trips.

Key features:

- 1 big compartment;
- 1 lid pocket;
- trekking poles and ice axe attachment
- 2 mesh pockets;
- adjustable chest strap and waist belt;
- long compression straps (karrimat)
- hydration system compatible;
- integrated raincover.

Carrying system: flexible preformed pad (P-formula)

Fabric: Midora Pro

Size: 35 liters

Colors:red/orange, grey/blue

NAXXA 30

Climbing backpack for weekends spent on trails. Integrated raincover protects from humidity. Key features:

- trekking poles and ice axe attachments points;
- 2 mesh pockets;
- adjustable chest strap and waist belt;
- long compression straps (karrimat)
- hydration system compatible;
- integrated raincover.

Carrying system: flexible preformed pad (P-formula)

Fabric: Midora Pro

Size: 30 liters

Colors:red/orange, grey/blue

KOOX 40

Big rope bag with integrated rope sheet and inner organizer for climbing gear.

Key features:

- 1 main compartment for rope and gear;
- 1 zipped inner pocket;
- carrying handles;
- 2 big mesh pockets;
- integrated rope sheet;
- inner loops for climbing gear
- full length front zip;
- simple carrying system.

Carrying system: fully padded back Fabric:

Midora Pro Size: 40 liters

Colors:red/orange, grey/blue

GUDYA 25

Compact and comfortable backpack for one day trips in the mountains. Key features:

- 1 compartment;
- 1 spacious front pocket;
- zipped inner pocket;
- trekking poles and ice axe attachments points;
- 2 mesh pockets;
- adjustable chest strap and waist belt;
- long compression straps for a karrimat;
- hydration system compatible.

Carrying system: adaptable perforated foam

(A-formula) Fabric: Midora Pro

Size: 25 liters

Colors:red/orange, grey/blue

AZZY 25

Medium sized backpack with carrying system and features which turn it into a good companion for trekking days. Key features:

- 1 compartment;
- 1 spacious front pocket;
- trekking poles and ice axe attachments points;
- 2 mesh pockets;
- adjustable chest strap and waist belt;
- hydration system compatible.

Carrying system: adaptable perforated foam (A-formula)

Fabric: Midora Pro Size: 25 liter

Colors:red/orange, grey/blue

ENTU 20

Smart daypack with comfortable carrying system and features enabling short trekking use. Key features:

- 1 compartment;
- 1 spacious front pocket;
- trekking poles attachments points;
- 2 mesh pockets;
- adjustable chest strap;
- simple waist belt;
- reflective piping;
- hydration system compatible.

Carrying system: EVA pads with air tunnel (T-formula)

Fabric: Midora Pro Size: 20 liters

Colors:red/orange, grey/blue

TRAVELLING ACCESSORIES

KYRKO 12

Small hydration pack with a compartment for the most important items during running or cycling trainings. Key features:

- 1 main compartment;
- separate hydration pocket;
- 1 front pocket;
- trekking poles attachment points;
- adjustable chest strap, simple waist belt;
- reflective piping;
- hydration system compatible.

Carrying system: EVA pads with air tunnel (T-formula)

Fabric: Midora Pro

Size: 12 liters

Colors:red/orange, grey/blue

HEFFO

Classic hip bag with wide, comfortable hip belt, spacious main compartment and 3 pockets.

Size: 11 x 27 x 7 cm

Colors:red/orange, grey/blue

OSSOM

Big hip bag with padded main compartment designed for carrying a system camera and lens. Wide hip belt is detachable, the bag is equipped with a carrying handle and shoulder strap.

Size: 16 x 36 x 10 cm

Colors:red/orange, grey/blue

INGU

Brand new wash case with inner hook, mesh pockets and carrying handle.

Size: 20 x 27 x 9 cm

Colors:red/orange, grey/blue

RIGG

Brand new folded wash case with inner hook, 4 open pockets for tubes and 2 spacious zipped pockets for hygiene products.

Size: 20 x 27 x 9 cm

Colors:red/orange, grey/blue

FIRST AID BOX

Characteristic wash case for medicines and hygiene products. Bright red color helps to find it in luggage. Available in two sizes

Sizes: 13 x 18 x 7 cm (M), 17 x 24 x 9 cm (XL)

2 sections-poles made of 7001 alloy, designed for ski touring and freeriding. Ergonomic EVA grip plus 30 cm long EVA tube on the top section provide flexibility in demanding slope conditions. Equipped with regular and powder snow baskets. The maximum length of 140 cm is adjustable with stable Clip Lock system.

Grip: ergonomic extended
EVA Weight: 550 g

MEMBRANE

Gelanots® – this membrane manufactured in Japan quickly gained confidence of the newest generation fabrics' enthusiasts all over the world. We are using this fabric in several versions, including:

- 3-layer Ultralight (3U, 77g/m²), enormously breathable (56000g/m²/24h) and waterproof (20.000mm/H₂O), where the outer ripstop layer is combined with breathable and waterproof membrane protected by knitwear;
- 3-layer Stretch (3S, 100g/m²), with very similar parameters to 3U version, but with an addition of elastic yarn;
- 3-layer (3L, 100g/m²) with excellent waterproof performance up to 20.000mm/ H₂O and breathability up to 20.000g/m²/24h. As a result, products made of Gelanots provide an efficient moisture transport away from the body avoiding process of condensation. Moreover, Gelanots laminates are not microporous so they retain their windproof, waterproof and breathable qualities for a long time of use.

AQUATEX™ – these fabrics comprise a group of different materials covered with a layer of microporous polyurethane. This layer manages to achieve two opposing characteristics. Because particles of water are bigger than the micropores in polyurethane, Aquatex is waterproof and windproof. On the other hand, the molecules of vapour produced by a body during physical exertion are much smaller than the polyurethane micropores, so perspiration can permeate through the outer layer of material where it evaporates into the air. This effect is known as breathability, maintaining a natural microclimate near the skin and reducing the sensation of overheating and discomfort due to moisture remaining between outer clothes and body.

SOFTSHELL 3 – waterproof and highly breathable softshell fabric, made of 3 layers. The outer 4-way stretch layer offers durability and movement. The middle layer is Aquatex™ and offers a waterproof, breathable membrane for optimum performance. The inner layer is a soft but durable fleece which acts as both insulation and a moisture transportation layer to quickly wick away perspiration.

SOFTSHELL 2 – 2-layer fabric constructed of 4-way stretch outer layer bonded to a fleece inner layer. It offers maximum freedom of movement combined with warmth, softness and wind protection. 2HL version is additionally finished with a warmer High Loft fleece layer for improved thermal protection

INSULATION

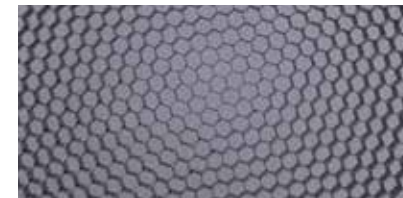

PRIMALOFT® SPORT – the perfect combination of high performance insulation and value. This technology combines ultra-fine and multi-diameter fibers for specific performance characteristics. The specially treated ultrafine fibers help to form a water resistant insulating structure, while the multidiameter fibers help to build loft. PrimaLoft® is currently one of the best alternatives to down. Fiber created for NASA. POLARTEC® is a trade mark and registered in United States and in other jurisdictions for fabrics available only from Polartec Inc. "Times" magazine hailed Polartec® products one of the greatest inventions of the 20th century. Polartec® Thermal Pro® Recycled – a group of knitted fabrics made of polyester fibers with excellent isothermal properties. The Thermal Pro® range offers unique insulation properties while moving the moisture away from the body. Very soft and breathable, they are rugged, do not change their outer appearance and are resistant to pilling.

POLARTEC® 200 CLASSIC – universal, classic fleece in 200 weight developed by Polartec®. Very warm, highly breathable, non-pilling and quick drying. Polartec® 100 Micro – these fabrics are the standard for lightweight warmth and breathability. These non-pilling fabrics maintain their insulation ability even after repeated cleaning and keep you warm and comfortable in a wide range of conditions.

NANOQPILE 2 – middle weight polar fleece with excellent thermal features. Efficient moisture transportation, quick drying and unique structure of polyester microfibrils provides better breathability. 2B version features additional bamboo fiber finishing.

NANOQPILE 1 – light and very stretchable fabric that combines features of first or second layer wear. Provides decent thermal properties and very good breathability.

NANOQPILE WP – durable and light fabric with great windproof properties. Its thermal protection feature causes that NanoqPile WP is used in production of active sportswear

TECHINCAL

EXTENDO – 4-way stretch fabric with a robust outer side and moisture regulating inner surface. Made from polyester and spandex fibers (93%/7%). Extendo dries rapidly, is highly elastic, retains its shape and is light and breathable making it a first choice for all active travellers, trekkers and climbers. Other versions:

- Extendo ST: heavier and thicker version of Extendo. Increased content of spandex fibers to 8% made Extendo ST more flexible. Used for production of highly technical garments for intense usage like ski touring;
- EXTENDO WT: a development of Extendo fabric with warmer inner finishing, prepared for colder seasons;
- Extendo CL: lightweight version of Extendo. Designed specially for climbing pants.

SUPPLEX® – fabric manufactured by Invista company that combines softness and grip of cotton and all best properties of nylon. It is resistant to tearing and abrasion as well as breathable. Thanks to thin Nylon fibres used for manufacturing it is up to 30 % softer than standard polyamide fabrics.

ECLIPSE – lightweight, pill resistant, polyester knit fabric with superior moisture management, which wicks moisture away from the body to the next layer of the clothing system. Eclipse has a soft feel, dries rapidly, and keeps its shape well.

Milo-Sport reserves the right to modify any of the products presented in this catalogue, if considers it appropriate. Please note that because of the limitations of the printing process, the colors of the products shown in this catalogue do not always match the real shades of fabrics used. Should any doubts arise, please consult with Milo-Sport. All products presented in the catalogue have the benefit of our 2 year warranty for workmanship and fabrics. Care should be taken while maintaining our products and the special, written instructions for use provided with each product should be followed. Warranty conditions: Milo-Sport products identified with our warranty label have a 24 month warranty for all design and fabric defects and for workmanship, which shall be to the standards set by the company. Repairs undertaken under warranty do not extend the warranty period. The warranty does not cover mechanical damages caused by the use or wear of elements and damages resultant from non-conformity to the instructions for use. Your statutory rights are unaffected
